

Fyshwick businesses, it's time to take control of your energy costs!

You cannot control spiralling rates costs, but energy is a cost you can control.

Carbon Blue is an independent service provider that specialises in lighting, solar PV and energy efficiency upgrades in industrial or commercial settings. Our independence along with our focus on simplifying compliance as part of our end to end project delivery process means we can create more value for our clients and implementation partners.

We have a motto of “reduction before production” to ensure that any solar projects are designed and sized for maximum return on investment for our customers.

Our services include:

- Bill analysis
- Lighting upgrades
- Solar PV and Storage
- Metering and Verification
- Project management
- Guidance and understanding of the various government energy rebates and grants available

We offer a full suite of services for Commercial and Industrial Energy Needs.

The first 20 Fyshwick Business members are eligible for a free no obligation Energy Assessment.

Contact Anne Pellegrino on 0481 842 757 or email anne@carbonblue.com.au

She will discuss and recommend the avenues you may have for achieving savings on your bills.
